City Hall, City of Lodi
Wednesday, June 27, 1928

The City Council of the City of Lodi met in adjourned regular session at 8.05 o'clock P.M. on the date first above written, Councilmen Hale, Shattuck, Weihe and Spooner present, Councilman Roach absent.

Mr Lloyd Thayer, President of Colorado Power Company stated that he proposed to develop a low head power proposition on the Mokelumne River near Campo Seco. He stated that he had a potential output of about 30,000,000 kilowatt hours annually generating about 5,000 H.P. As the consumption of power by this City would be less than 1/5 of the power to be generated, he asked the co-operation of the City in obtaining the direction of the District Chamber of Commerce for making a power survey of the lands adjacent to Lodi.

At the order of the Council, the Clerk was directed to introduce Mr Thayer or his representatives to the Secretary of the Chamber of Commerce and recommend that this matter be given consideration by the Board of Directors.

On motion of Councilman Shattuck, Weihe second, it was directed that three memberships be paid by the City in the California Sewage Works Association, one for the Manager of the Plant, one for the City Engineer and the other to be held by the City Clerk.

On motion of Councilman Weihe, the Council adjourned to the date and hour of their next regular meeting.

Attest: J. F. Blakely
City Clerk.

The foregoing minutes read and approved without correction at a regular meeting of the Council held July 2, 1928.

H. A. Spooner
Mayor.

July 2, 1928.
