

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Request approval to amend Consolidated Plan to reflect a change in the project description from Van Buskirk Park ADA Retrofit to Van Buskirk Park Improvement Project

MEETING DATE: September 3, 1997

PREPARED BY: Community Development Director

RECOMMENDED ACTION: Staff is requesting that the Council approve an amendment to the Consolidated Plan to reflect the change in project description for Van Buskirk Park, enabling staff to proceed with this project. In order to meet Federal regulations, Council approval of this change is necessary.

BACKGROUND INFORMATION: In March of this year, the Council approved the 1997-98 CDBG and HOME entitlement. The approved entitlement is one component of the county-wide Consolidated Plan. As a part of that approval, the Van Buskirk Park Project was described as an ADA retrofit, benefiting primarily those individuals with mobility limitation handicaps. However, the project will predominantly benefit the general population of the target area instead. The project will now qualify for CDBG funds and be described as a "Public Facility and Improvement Project."

The Van Buskirk Park Project has been bid and is awaiting award to the low bidder. No changes are being proposed to the scope of work or total cost of the project.

FUNDING: CDBG funding already in place, no action requested.

Konradt Bartlam
Community Development Director
