# COUNCIL COMMUNICATION

**AGENDA TITLE:** Contract Award for White Slough Water Pollution Control Facility Holding Pond No. 3 Embankment Rehabilitation, 12751 North Thornton Road (\$79,340)

**MEETING DATE:** August 7, 1996

**PREPARED BY:** Public Works Director

**RECOMMENDED ACTION:** That the City Council adopt the attached resolution awarding the contract for the above project to Moody Construction, of Sacramento, in the amount of \$79,340 and appropriate funds in accordance with the recommendation shown below.

**BACKGROUND INFORMATION:** This project will reconstruct the levee embankments of Holding Pond No. 3 at the White Slough Water Pollution Control Facility (WSWPCF) and reface them with riprap. This is the second year of a four-year project. Last summer, Pond No. 2's levee embankments were rehabilitated. The City will be rehabilitating one pond each year until all four ponds have been reconstructed.

City staff has discussed the bid results with Moody Construction. They feel that they have given the City a good price for this project and are anxious to start work. In 1994, Moody Construction installed a cast-in-place concrete pipeline at the WSWPCF treatment plant. There were no problems in working with Moody Construction and that project was completed within budget and without any major disagreements between the City and the Contractor.

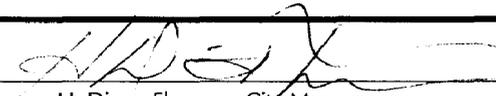

Plans and specifications for this project were approved on June 19, 1996. The City received the following eight bids for this project:
