

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Plans and Specifications and Advertisement for Bids for Lodi Lake Nature Trail

MEETING DATE: March 15, 1995

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

BACKGROUND INFORMATION: Last year, the Parks and Recreation Department obtained a \$20,000 grant from the State Department of Parks and Recreation Habitat Conservation Fund Program to help pay for the installation of a dust-free water-resistant trail in the Wilderness Area of Lodi Lake. This new trail will create a looped path through the Wilderness Area and eliminate the dead end in the existing asphalt bike trail. It will also expand the handicap route through the Wilderness Area, eliminate unrestricted traffic in sensitive environmental areas, remove various haphazard trails and reroute other trails. The project consists of constructing approximately 3,250 lineal feet of 8-foot wide decomposed granite path and other incidental and related work, all as shown on the plans and specifications for the project.

The grading and subgrade compacting of this trail will be done by the Street Division and this contract will furnish, spread and compact the path material. The total project estimate is \$50,000. Additional money has been appropriated in this year's Capital Outlay Reserve Fund to cover the balance of the project.
