

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Plans and Specifications and Advertisement for Bids for White Slough Water Pollution Control Facility Irrigation System Expansion Pipeline Project

MEETING DATE: January 19, 1994

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

BACKGROUND INFORMATION: The pipeline project is Phase I of the White Slough Water Pollution Control Facility irrigation system expansion. The completion of the scheduled three phases will enable the City to expand the irrigation system to include the recently purchased 274 acres southeast of the plant. This will allow the disposal of cannery waste and plant effluent to this land. Under the terms of our State discharge permit, the City is required to pursue this project which enables us to spread effluent onsite instead of discharging to the Delta in the event of a disruption in the treatment process.

Funds for this project have been appropriated in the Wastewater Capital Improvement Program (CIP). The remaining work is scheduled for fiscal year 1994/95 in the CIP.

FUNDING:	Originally Budgeted:	1992/93
	Budgeted Fund:	Sewer Utility Capital Outlay
	Current Appropriation:	\$137,000
	Total Project Estimate:	\$137,000
	Bid Opening Date:	February 9, 1994

 Jack L. Ronsko
 Public Works Director
