MEETING DATE: October 17, 2001

PREPARED BY: Electric Utility Director

RECOMMENDED ACTION: That the City Council approve the specifications and authorize advertisement for bids for twenty-five post-top (globe) luminaires.

BACKGROUND INFORMATION: These luminaires, Holophane's *Prismasphere*® globe style, consist of an 18-inch prismatic globe, a high-pressure sodium ballast, and a mounting base. They are used with the concrete street light standards, and are similar in appearance to those in place at Hutchins Street Square.

The luminaires in this bid will be placed into inventory for use in upgrades of the older style post-top globes. The older globes will be replaced when they incur damage or when the lamp ballast fails.
