

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Awarding Contract for Alley South of Pine Street Wastewater Main Rehabilitation Project (Church Street to Hutchins Street) to Pacific Liners of Vacaville (\$96,070), and Appropriate \$110,000

MEETING DATE: October 15, 2003

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council adopt a resolution awarding the contract for the above project to Pacific Liners of Vacaville in the amount of \$96,069.10; and appropriate \$110,000.00 for the project in accordance with the recommendation below.

BACKGROUND INFORMATION: The City initiated this pipeline rehabilitation project as part of a take-action request from the California Regional Water Quality Control Board (Board) in order to enhance the effectiveness of a soil vapor extraction (SVE) system currently being installed by Guild Cleaners.

On September 3, 2003, Council approved plans and specifications, authorized advertisement, and adopted a resolution authorizing the City Manager to award or reject a contract up to \$90,000.00 to the successful bidder. However, the low bid received exceeds the \$90,000.00 limit set by Council, therefore, requiring further Council action.

The project was advertised on September 9, 2003. On October 1, 2003, one sealed bid was received from Pacific Liners for \$96,069.10. The Engineer's Estimate was \$81,490.00. The bid received by Pacific Liners is technically compliant with the City's plans and specifications, and the bidder possesses the required valid contractor's license.

While it is favorable to receive more than one bid, the insitu pipe lining processes associated with this project are performed by specialized firms, only one of which is located in Northern California. Staff encouraged participation from another company from Southern California; however, they chose not to bid, likely due to the relatively small project size.

Construction of this project is anticipated to start in early November of this year. City staff will perform inspection and construction management services.

In order to maintain compliance with the Board's request, it is recommended that Council award a contract for the project to Pacific Liners and appropriate \$110,000.00 for the project. The difference between the contract award and the requested appropriation includes funds for unforeseen changes in the work.

FUNDING: Requested Appropriation: Wastewater Utility Capital Outlay Fund \$110,000.00
