GENERAL PLAN UPDATE NEWSLETTER

Sowing the Seeds of Lodi's Future

Last year, we celebrated Lodi's centennial, marking the effortsthat created the city we live in today. And we have much to be proud of—our local charm, a historic downtown, growing businesses, an expanding job base, a rising status as a wine appellation, and an overall high quality of life.

Recently, we initiated an exciting project to plan the future of our city—the Lodi General Plan Update—to ensure the continuation of "Livable, Lovable Lodi" for future generations. The General Plan, last comprehensively completed in 1991, is our primary guide for development, housing, transportation, environmental quality, and parks and open spaces. Working closely with the community, we will create a long-term vision for Lodi and a roadmap to get there.

Today, we enjoy the fruits of the previous plan that has guided the city's development the past 15 years. While we can be proud that many of that plan's objectives have been achieved, new opportunities, challenges, and approaches have emerged. Now, at the historic centennial milestone, ***you*** have the chance to sow the seeds for Lodi's future.

The success of the Lodi General Plan Update relies on involvement of all of our citizens. In order for the new Plan to reflect the community's goals and ideas, we must hear fromyou. Please fill out the attached survey and attend the first public workshop on Wednesday June 13. Additional meetings and workshops will follow. You can sign up for announcements and project information on our website at www.lodi.gov/community_development/general_plan.

Plantando las Semillas para el Futuro de Lodi

El año pasado celebramos el centenario de Lodi, marcando así los esfuerzos que crearon la ciudad donde vivimos hoy. Y *tenemos* mucho de que estar orgullosos -nuestro encanto local, un centro de la ciudad histórico, comercios en crecimiento, una fuente de empleos en expansión, una reputación en crecimiento por sus vinos y un estándar de vida de alta calidad.

Recientemente, iniciamos un proyecto excitante para planear el futuro de nuestra ciudad –la actualización del Plan General de Lodi- para asegurar la continuación de "Agradable, Encantadora Ciudad de Lodi" para futuras generaciones. El Plan General, que fue terminado extensivamente la **última** vez en 1991, es nuestra **guia principal** para el desarrollo, urbanización, transportación, calidad ambiental, parques y espacio abiertos. Trabajando cercanamente con los miembros de la comunidad, crearemos una vision a largo plazo para Lodi y un mapa de caminos para llegar allí.

Hoy disfrutamos los frutos del plan previo que ha guiado el desarrollo de la ciudad por los últimos 15 años. Aunque podemos estar orgullosos de que muchos de los objetivos del Plan han sido alcanzados, nuevas oportunidades, retos y enfoques han surgido. Ahora, cuando se cumple el gran acontecimiento histórico de nuestro centenario, tu *tienes* la oportunidad de sembrar *las semillas* para el futuro de Lodi.

El éxito de la actualizacion del Plan General de Lodi depende del envolvimiento de sus ciudadanos. Para que el nuevo Plan refleje las metas e ideas de la comunidad, debemos saber *tu* opinion. Favor llenar la encuesta que se acompafia y asista al primer taller público que se llevará a cabo el miércoles 13 de Junio. Más reuniones y talleres seguirán más adelante. Puedes inscribirte para los comunicados e información del proyecto en nuestra página del Internet www.lodi.gov/communitydevelopment/generalplan

Khat *is* the General Plan?

fie General Plan is the guide for the future social, physical, and :conomic development of the City. It establishes where, what kind, ınd how much development can occur, in addition to policies on and use, transportation, environmental quality, and resource con- :ervation. All cities in California must adopt general plans, per state aw—it is our land use "constitution."

What will it Cover?

4 wide range of topics will be addressed in the General Plan Update, such as how and where the City should grow: connections between :he older neighborhoods, downtown, and newer developments: Strategies for attracting new businesses, stores, and high-quality jobs; protecting important natural and agricultural areas; strategies for growth management; and quality of life issues such as public facilities, air quality, parks, walkability, environmental sustainability, and livability. The new General Plan will contain chapters or "elements"—such as land use, housing, conservation, community design; circulation, noise, open space and recreation, and safety—to guide future decisions on these important City issues and others.

What is the Process?

Updating the General Plan involves a step-by-step process, where each step builds on the last and involves community discussion. The first steps involve gathering public input on goals, hopes, and visions for Lodi, and mapping existing land use patterns, resources, and development opportunity sites. Alternative growth and development scenarios will then be presented for public discussion before the new General Plan is prepared. A consultant team specializing in general plans and urban planning is facilitating this process.

Meet the General Plan Team

The City Council and the Planning Commission are guiding the General Plan Update process. The Planning Commission will make recommendations to the City Council, which makes the ultimate decisions. City staff, our consultants—Dyett & Bhatia, Urban and Regional Planners—and associated team members together with City staff will assist with public participation and prepare plans and documents.

¿Qué es el Plan General?

El Plan General es la guia para el futuro social, fisico y economico del desarrollo de la ciudad. Establece dónde, qué tipo y cuanto desarrollo puede ocurrir, además de normas relacionadas con el uso del terreno, transportación, calidad ambiental y conservación de los recursos. Todas las ciudades de California tienen que adoptar Planes Generales por ley estatal.

¿Qué cubrira?

Una amplia variedad de topicos serán discutidos en el Plan General Actualizado, tales como, como y donde la ciudad debiera crecer, conecciones entre los vecindarios viejos, centro de la ciudad y nuevos desarrollos; estrategias para atraer nuevos negocios y trabajos de alta calidad; proteger áreas naturales importantes y de agricultura; estrategias para controlar el crecimiento: y asuntos sobre la calidad de vida como son las facilidades publicas, calidad del aire, parques, la habilidad de caminar a todas partes, mantenimiento del medio ambiente y la habitabilidad. El nuevo Plan General tendra capitulos 6 "elementos" –como el uso del terreno, viviendas, conservación, diseno de la comunidad, circulación, ruido, espacios abiertos y de recreación, y seguridad- para guiar decisiones futuras en estos importantes temas de la ciudad y otros.

¿Cuál es el proceso?

Para actualizar el Plan General envuelve un proceso de paso a paso, donde cada paso se basa en el anterior e incluye discusiones de la comunidad. Los primeros pasos envuelven recopilar la *opinión pública* sobre metas, esperanzas yvisiones para Lodi, y hacer un mapa de los patrones del uso de terrenos existentes, recursos y locales con la oportunidad de desarrollo. Crecimiento alternativo y escenarios de desarrollo serán entonces presentados para discusión pública antes de que el nuevo Plan General sea preparado. Un equipo de consultores especializados en Planes Generales y Planificación Urbana facilitará este proceso.

Conozca el equipo del Plan General

El Consejo de la Ciudad y la Comision de Planificación están guiando el proceso de actualización del Plan General. La Comision de Planificacion hará recomendaciones al Consejo de la Ciudad quien hace la decision final. Los empleados de la ciudad, nuestros consultores, Dyett & Bhatia Urban and Regional Planners, los socios del equipo conjuntamente con los empleados de la ciudad asistirán a que el público participe y prepararán los planos y documentos.
