2-19-92

Lodi City Council;

RIVER ACCESS

It appears that the influence of the wealthy has once again triumphed at the expense of the public.

The recommendation of the committee on **2-18-92** to deny further access to the public is shocking, to say the least.

Instead of recommending more public access to the river, as required by law, the committee actually favors the establishment of yet ANOTHER PRIVATE PARK for the "RIVER PEOPLE".

I STRONGLY RESENT any of my tax dollars going to finance a private park at the Senic Overlook, and will do everything in **my** power to stop it.

Sincerely,

R E Thull

Capt. R.E. Thull
