2 maps (DO NOT DUPLEX). showing the proposed street numbering; or two lists of all streets with inclusive number; in either case. the streets must be delineated on the maps. If the territory is undeveloped, a statement to that effect should be placed on the map. The maps should clearly define the existing city limits and the area which has been annexed. If the annexation map does not show adjacent city streets, then a locator map should also be provided. Also, when the city and county are using different block numbering systems for the same area, they should be provided with both. Advise principal uses in the area, and what businesses exist now, giving names and addresses. Do not run back to back, mark "undeveloped" if street numbers are not in.
