Dear Council Members,

On April 2, 1992 I was mailed an Abatement Order on a building that I own at 4 Sierra Vista Place. The building was partially damaged by fire last summer and since then has been repaired.

I had Mike Smith inspect the building and he agreed with me that 'this building did NOT need demolition.

This is a storage only building that requires no city utilities., It is also completely fenced and locked at all times as I only store personal items which require minimal attention.

Please accept my appeal and lift this demolition order as it could prove quite costly for me to further appeal, or worse yet, demolish a useful building.

Sincerely,

Joe Newfield

Dear Mark:

Having inspected your fire damaged storage building on South Sacramento Street here in town, I have concluded that this structure can be salvaged. If you were to have your contractor replace the more severely damaged members, and install additional studs and rafters next to those that are not completely burned, this structure could be as structurally sound as it was before the fire. This repair work should not require a very large amount of time or money to accomplish.

If you require any additional services or would like to discuss this subject further, feel free to drop in or call.

Sincerely:

A handwritten signature in black ink, appearing to read 'Michael W. Smith'.
