F. Comments by the Public on Non-Agenda Items

THE TIME ALLOWED PER NON-AGENDA ITEM FOR COMMENTS MADE BY THE PUBLIC IS LIMITED TO FIVE MINUTES.

The City Council cannot deliberate or take any action on a non-agenda item unless there is factual evidence presented to the City Council indicating that the subject brought up by the public does fall into one of the exceptions under Government Code Section 54954.2 in that (a) there is an emergency situation, or (b) the need to take action on the item arose subsequent to the agenda's being posted. Unless the City Council is presented with this factual evidence, the City Council will refer the matter for review and placement on a future City Council agenda.

Robin Rushing spoke in regard to his concerns about the safety and studies regarding artificial turf and suggested a moratorium be placed until further results from studies can be obtained.

Clifford Weaver spoke in regard to his concerns about the transit system, the differential between the GrapeLine and VineLine, preferences for the disabled, and the costs associated with a records request. City Attorney Schwabauer stated the Freedom of Information Act does not apply to Mr. Weaver's request as it is governed by the California Public Records Act. Mr. Schwabauer stated a requester is free to inspect public records at no cost, but he would pay a fee of ten cents per page if he wished to obtain copies of such records. City Clerk Johl confirmed that a variety of records are available on-line through e-Records at no charge.

G. Comments by the City Council Members on Non-Agenda Items

Council Member Mounce requested staff look at the services provided through the GrapeLine

In the past, there have been several studies questioning the health safety of Artificial Turf. Now the California Office of Health and Safety with regards to health hazards is completing a study due out October 7, 2009.

We are asking that a Moratorium be placed on the installation of Artificial Turf in the city of Lodi, this would include the Grape Bowl, until we are confident that Artificial Turf is safe for children to be playing on as well as adults having exposure to the surface. We don't want to put our children at risk.
