

# CITY OF LODI

# COUNCIL COMMUNICATION

AGENDO TITLE: Traffic Resolution Amendment - Avena Avenue at Walnut Street and Louie Avenue at Pleasant Avenue, Intersection Control

MEETING DATE: August 5, 1992

PREPARED BY: Public Works Director

**RECOMMENDED ACTION:** That the City Council adopt a resolution amending the Traffic Resolution #87-163 to approve the conversion of "yield" signs to "stop" signs on Avena Avenue at Walnut Street and on Louie Avenue at Pleasant Avenue as shown on the attached map.

**BACKGROUND INFORMATION:** The intersections of Avena Avenue at Walnut Street and Louie Avenue at Pleasant Avenue have been studied due to their accident rates. The accident rates at these locations rank high on our study list of intersections controlled by "yield" signs.

Available accident records over the three-year period from 1989 through 1991 indicate there have been three accidents at the intersection of Avena Avenue and Walnut Street and two accidents at the intersection of Louie Avenue and Pleasant Avenue correctable with the installation of "stop" signs.

Based on the department's intersection control guidelines, a "stop" control is recommended on Avena Avenue at Walnut Street due to the low traffic volumes and disproportionately high number of accidents. A "stop" control is also recommended on Louie Avenue at Pleasant Avenue due to the number of accidents and the low approach speeds necessary for drivers on Louie Avenue to see approaching vehicles on Pleasant Avenue. Multi-way stop controls are not justified at either of these intersections.

**FUNDING:** Funding to be provided by the Street Maintenance Account.
