

C O U N C I L C O M M U N I C A T I O N

TO: THE CITY COUNCIL
FROM: THE CITY MANAGER'S OFFICE

COUNCIL MEETING DATE
JANUARY 17, 1990

SUBJECT: SUBMISSION OF APPLICATION UNDER CALIFORNIA BEVERAGE CONTAINER RECYCLING
 AND LITTER REDUCTION ACT

PREPARED BY: Assistant City Manager

RECOMMENDED ACTION: The City Council approve the submission of a grant application to provide funds to expand the City's curbside recycling efforts.

BACKGROUND INFORMATION: On September 29, 1989, Governor Dukmejian signed into effect landmark legislation AB939, which calls for the establishment of an aggressive program to reduce the amounts of waste generated in California. Spectfically, this legislation mandates a 25% reduction in the amount of solid waste produced by 1995 and a 50% reduction by the year 2000.

Fortunately, California Waste Removal Systems and the City of Lodi are in an excellent position to meet these requirements. We presently have in place many of the components necessary to meet these mandates; such as a commercial and residential curbside recycling program, a state of the art composting program, a waste wood recovery program, and an excellent waste reduction education program in the local schools.

In an effort to enhance and expand existing programs, the State of California, through the Department of Conservation, is making \$2 million worth of funds available to the cities and counties who have established programs such as our community. This poses an excellent opportunity for our community to significantly expand our residential curbside recycling program. It is my recommendation to the Council to make an application for a portion of these funds. Attached is a draft of an application for those funds predicated upon our existing programs. Our application requires Council action in the form of a resolution. The deadline for submission of this application is January 31, 1990. Consequently, time is of the essence.

This program gives benefits to our community in terms of environmental, economic and social issues.

Respectfully submitted,

Jerry L. Clenn
Assistant City Manager

RESOLUTION NO. 90-13
=====

A RESOLUTION OF THE LODI CITY COUNCIL
APPROVING THE SUBMISSION OF AN APPLICATION UNDER THE
CALIFORNIA BEVERAGE CONTAINER RECYCLING AND LITTER REDUCTION ACT
=====

WHEREAS, the Legislature of the State of California has enacted the California Beverage Container Recycling and Litter Reduction Act which provides funds to certain entities for litter abatement and recycling activities; and

WHEREAS, the Division of Recycling has been delegated the responsibility for the administration of the program, setting up necessary procedures governing the submission of proposals by various organizations and local agencies under the program; and

WHEREAS, said procedures established by the Division of Recycling require the proposer to certify by resolution, local approval to submit an application prior to submission of said application to the State;

NOW, THEREFORE, BE IT RESOLVED, that the Lodi City Council:

1. Fully supports all projects within said application;
2. Certifies that the proposed project(s) does not replace City of Lodi previously-budgeted project(s).

Dated: January 17, 1990

=====

I hereby certify that Resolution No. 90-13 was passed and adopted by the City Council of the City of Lodi in a regular meeting held January 17, 1990 by the following vote:

Ayes : Council Members - Hinchman, Olson, Pinkerton, Reid and Snider (Mayor)

Noes : Council Members - None

Absent: Council Members - None

Jennifer M. Perrin

5. SUMMARY AND JUSTIFICATION

- a. Early in 1989, the City of Lodi in cooperation with its franchised hauler, California Waste Removal Systems, embarked on a curbside recycling program. An intense in-school program was developed with the students encouraged to have their parents request Yree, colorful plastic buckets for holding the recycled materials. To date, approximately 3,214 of the possible 15,875 single family residents have requested containers. We are requesting funds to purchase and distribute the recycling buckets to the remaining households.

- b. From the results to date, it is evident that with every household provided recycling containers and instructional information, we could substantially increase participation and volumes of material collected and diverted from the waste stream.

6. SCOPE OF WORK

- a. The program is targeted for all single family homes in the City of Lodi. California Waste Removal Systems has a special truck designed for the curbside pick up of glass, cans, ~~P.E.T~~ plastic beverage containers and newspaper. Service is weekly on the same day as garbage collection. Materials are taken to the CWRS processing facility where they are prepared for market and sold. Revenue from the sale of materials goes directly to cover the costs of providing the service.

- b. The City totally supports the current program in place and has, within its franchise agreement with CWRS, a clause to insure curbside recycling services will be provided. This request will allow the program to expand and achieve more positive results.

- c. Not applicable

- d. The method of monitoring takes several forms. Basically each driver counts the number of stops per route. This provides a weekly participation figure. All materials are weighed on a daily basis when they are brought in for processing. This provides an accurate account of type and volume of materials collected..
- Follow up accounting is verified when materials are sold. It is planned that a one-month, house-to-house audit can be done to determine actual monthly participation and to target and encourage residents who are not recycling to do so.
- e. The commitment to provide the recycling service is included as part of the City's franchise agreement with CWRS. The service is part of the overall service offered to residents of Lodi. The grant funds requested will speed up program expansion and increase waste diversion efforts.
- f. Subcontracting by the City will be with California Waste Removal Systems, the franchised garbage hauler. Their role will be to distribute the recycling containers and provide appropriate collection, processing and marketing services. Costs for providing these services is included in the present fee structure.

7. IMPLEMENTATION SCHEDULE

<u>MONTH</u>	<u>TASK</u>
1	Order recycling containers Prepare/print instruction information
2	Distribute containers and instructions Stage media event Media releases Begin collection to new residents
Ongoing	Weekly, monthly, quarterly reports Media releases
12	Final Report

8. BUDGET PROPOSAL

As the basic program is already in place, with personnel and operating expenses budgeted in the current franchise contract, the only funds we are seeking ^{are} ~~is~~ for the purchase of recycling containers to expand the program city-wide to all residents'.

53,858 Recycling Buckets @ \$ 2.00 -- \$ 107,716.00

Collection Drivers

b. California Waste Removal Systems has provided recycling services for the City of Lodi, as well as the other communities they serve since 1989. Their in-school education program is recognized as one of the most comprehensive throughout California. Their state-of-the-art processing facility and comprehensive composting programs have served as models for numerous other communities. 1938. The company has been in the waste management business since 1938.

January 10. 1990

TO THE HONORABLE MAYOR AND CITY COUNCIL:

On September 29. 1989. Governor Dukmejian signed into effect landmark legislation AB939, which calls for the establishment of an aggressive program to reduce the amounts of waste generated in California. Specifically. this legislation mandates a 25% reduction in the amount of solid waste produced by 1995 and a 50% reduction by the year 2000.

Fortunately, California Waste Removal Systems and the City of Lodi are in an excellent position to meet these requirements. We presently have in place many of the components necessary to meet these mandates; such as a commercial and residential curbside recycling program. a state of the art composting program, a waste wood recovery program, and an excellent waste reduction education program in the local schools.

In an effort to enhance and expand existing programs. the State of California. through the Department of Conservation, is making \$2 million worth of funds available to the cities and counties who have established programs such as our community. This poses an excellent opportunity for our community to significantly expand our residential curbside recycling program. It is my recommendation to the Council to make an application for a portion of these funds. I have enclosed for staff's review a draft of an application for those funds predicated upon our existing programs. Of course, this requires council's action in the form of a resolution. The deadline for submission of this application is January 31, 1990. Consequently. time is of the essence.

I urge you to give this item strong consideration in that there is a positive public. environmental. economic and social benefit in your action on this matter.

Sincerely,

David Vaccarezza
