

CITY OF LODI

PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO:	City Council	Project Data	
		Originally Budgeted:	1986/87
		Budgeted Fund:	1986 State Park Bond/ General Fund
FROM:	City Manager	Amount Budgeted:	\$230,000
		Total Project Estimate:	\$230,000
MEETING DATE:	January 17, 1990	Bid Opening Date:	2/28/90
AGENDA TITLE:	Plans and Specifications for Lodi Lake Park Restroom Improvements (North and South), 1301 West Turner Road		

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the **above project and authorize** advertising for bids.

BACKGROUND INFORMATION: This project consists of constructing a new restroom on the north point of Lodi Lake. This replaces the existing structure built in the late 1930s which could not be modified for handicap accessibility because of its size. Also included in the project is the construction of a small packaged sewage lift station and piping to replace the malfunctioning gravity sewer which served the old north restroom. This project also consists of modifying the south restroom at the lake for handicap accessibility and replacement of the old fixtures with new vandal resistant ones. The project is jointly funded by the City and 1986 State Park Bond funds.

Jack L. Ronsko
