CITY COUNCIL MEETING
JANUARY 18, 1989

SAN JOAQUIN COUNTY
HAZARDOUS WASTE
MANAGEMENT PLAN APPROVED

RES. NO. 89-09

CC-7(b)

CC-54

Notice thereof having been published according to law, an affidavit of which publication is on file in the office of the City Clerk, Mayor Pinkerton called for the public hearing concerning the San Joaquin County Hazardous Waste Management Plan.

The City Council was apprised that Federal and State Statutes mandate an immediate and dramatic improvement in the way nonradioactive hazardous waste is managed in the nation and California. AB 2948 was adopted to insure that safe, effective and economical facilities for the management of hazardous wastes are available when they are needed, and that these facilities are of a type, and operated in a manner, which protects public health and the environment. The San Joaquin County Board of Supervisors, on March 24, 1987, notified the State Department of Health Services of the County's intent to prepare a County Hazardous Waste Management Plan (CHWMP) pursuant to AB 2948. The cities of San Joaquin County and the County, in joint cooperation, have prepared a CHWMP in conformance with AB 2948. AB 2948 required that the CHWMP be approved by a majority of the cities within the County which contain a majority of the population of the incorporated area of the County.

Mr. Tom Horton, the County's Solid Waste Manager presented the plan and responded to questions regarding the matter as were posed by the City Council. Also addressing the City Council regarding the matter was Gordon Lillis, the County's Hazardous Waste Plan Coordinator.

There being no persons in the audience wishing to address the Council on the matter, the public portion of the hearing was closed.

Following discussion, on motion of Mayor Pro Tempore Snider, Hinchman second, the Lodi City Council adopted Resolution No. 89-09 - A Resolution of the Lodi City Council Approving the San Joaquin County Hazardous Waste Management Plan.
