

COUNCIL COMMUNICATION

TO: THE CITY COUNCIL	COUNCIL MEETING DATE	NO.
FROM: THE CITY MANAGER'S OFFICE	APRIL 18, 1990	
SUBJECT: SALE OF SCRAP WIRE & METAL		

RECOMMENDED ACTION: That the City Council approve the sale of various lots of scrap wire and metal, as detailed below. Estimated value of the sale is \$2,200.

BACKGROUND INFORMATION: During the course of operations the Electric Utility and Water/Wastewater Departments accumulate scrap wire, transformer casings, iron and pipe. Approximately twice a year these accumulations are offered to bid to scrap metal dealers in the Lodi/Stockton/Sacramento area.

Under Ordinance #1474 recently enacted by the City Council, the sale of City property having a value of \$2,000 or less may be authorized by the City Manager. With the expected value of this sale exceeding that level, approval to offer this material for sale is therefore requested of the City Council.

This sale consists of the following items and estimated weights:

Bare Copper Wire	800 lbs.
Insulated Copper Wire	1,400 lbs.
Aluminum Wire, Insulated & Bare	3,000 lbs.
Lead Pipe	1,000 lbs.
Scrap Brass	675 lbs.
Transformer Casings	10 each
Luminaire Shells	29 each
Scrap Iron	1 lot

The deadline for submitting informal bids will be Wednesday, May 2, 1990.

Joel E. Harris
Purchasing Officer
