FUNDING FOR POOL
COVER FOR ENZI
POOL AT BLAKELY
PARK APPROVED

cc-20
cc-47

Council was apprised that when Blakely Park Pool and the MelEnze Pool construction and remodeling project took place, Staff chose to not include all miscellaneous items in the bid specs in order to help hold down costs and to not add to additional marking up of various items that staff felt the City could bid and purchase independently of this major project and possibly secure a better price.

One of these items that is now very obviously needed due to our use during these winter months, as well as possible use by the public and year-round school children on an in-season and out-of-season basis, is a pool cover.

The cover that Staff is *requesting* would be for the new Mel Enze Pool, which is in daily use by the U.S. Swim Team, and in the near future, *the* public's use. The cost according to bids received would be \$5,300.78 for the cover, winder, and a cover for the winder.

Council approved the purchase of a pool cover for the Mel Enze Pool at Blakely Park and appropriated \$5,300 from the Capital Outlay Reserve Fund for this expenditure.
