RECOMMENDED ACTION: That the City Council award the contract for the above project to Layne Western Company, Inc. in the amount of \$5,060.00.

BACKGROUND INFORMATION: This project is for the abandonment of Well No. 11. The well is an open hole type well, drilled in 1959. It has been out of service since 1981 for high dibromochloropropane (DBCP) test results and excess sand production. Past attempts to rehabilitate problem wells of this type have been costly and generally not successful. Therefore, abandonment is recommended. See attached vicinity map.

Plans and specifications for this project were approved on February 15, 1989.

The City received the following three bids for this project:
