AGENDA TITLE: Plans and Specifications for Harney Lane Overlay, Hutchins Street to 400 Feet West of Stockton Street

RECOMMENDED ACTION: That the City Council approve the plans and specifications for the above project and authorize advertising for bids.

BACKGROUND INFORMATION: This project consists of an asphalt concrete overlay with pavement reinforcing fabric and minor widening on the north side of the Southern Pacific Railroad crossing. The 6-foot widening will connect existing pedestrian walkways.

There are no driveways on this section of Harney Lane, thus the problem of vehicles scraping is not an issue.
