AGENDA TITLE: Adopt Resolution Authorizing City Manager to Execute Professional Services Agreement and Extensions with WGR Southwest, Inc., of Lodi, for Storm Drainage Permit Compliance Services (\$39,855)

MEETING DATE: September 19, 2012

PREPARED BY: Public Works Director

RECOMMENDED ACTION: Adopt resolution authorizing City Manager to execute professional services agreement and extensions with WGR Southwest, Inc., of Lodi, for storm drainage permit compliance, in the amount of \$39,855.

BACKGROUND INFORMATION: The State Water Resource Control Board issued to the City of Lodi Permit WDID No. 5B39NP00028 that governs the discharge of storm water runoff. A condition of that permit requires regular wet season inspections of construction site best management practices be performed for all regulated construction sites as well as annual reporting of the storm drain activities. The wet season is defined as October 1 through April 15. On May 16, 2007, City Council approved a professional services agreement with WGR Southwest, Inc., of Lodi to perform these services. This contract has been extended over the past several years; however, the required scope has grown significantly due to expanded regulatory requirements.

The State adopted the Construction General Permit on September 2, 2009, which requires construction sites be inspected, monitored, and annual reports for each site completed throughout the Storm Water Pollution Prevention Plan (SWPPP) permit duration. Construction site SWPPP plan review services have been included in the scope of services. Development Standards Plan site compliance review services have also been included as an option if needed by the City.

The two-year professional services agreement, which includes an option for two two-year extensions, has a projected cost of \$39,855 per year if all the services are utilized.

FISCAL IMPACT: A portion of the inspection costs will be offset by revenues from the Storm Drainage Permit Compliance Inspection Fees. Non-compliance with the reporting requirements could subject the City to fines.

FUNDING AVAILABLE: Storm Drain Maintenance (170405) \$39,855 per year

RE: Proposed Scope of Work – MS4 Program Support for the
2012-2013 Storm Water Season

Dear Ms. Garcia,

WGR Southwest, Inc. (WGR) is pleased to provide the City of Lodi with this proposal and scope of work to assist the City of Lodi with its MS4 Permit compliance program for the 2012-2013 storm water season. The following is the scope of work that we are proposing.

A. The Storm Water Construction Element:

- **Construction Inspections (Monthly Inspections)** – These inspections will be performed at all active construction sites having submitted a NOI for General Permit coverage within the City of Lodi on a monthly basis. The initial inspection will consist of a precursory review of the SWPPP. All site visits will include an inspection of the construction site and its BMPs, completion of a compliance checklist, review of the inspection findings with the site construction supervisor, if available, and preparation of an internal report and other supporting documentation for your Department. The construction inspections will be conducted from October through April as required by the City's SWMP.
- **Construction Inspections (Follow-up Visits)** – Follow-up inspections will be performed where significant compliance deficiencies were identified during the monthly visit that require follow up sooner than the next monthly inspection. We will complete another compliance checklist, review the inspection findings with the site supervisor, if available, and prepare an internal report and other supporting documentation for your Department.
- **Construction Annual Reports (Annual)** – WGR will complete the Annual Report for City-owned projects that had more than three continuous months of construction during the storm water year where the City of Lodi was designated as the LRP. WGR will complete the Annual Report on the SMARTS System and compile and review all Inspection Reports, Monitoring Data, Training Records, and Weather supporting documentation associated with the annual report.

- **QSP Services for CIP Projects** – WGR will provide a State Certified QSP to assist the City of Lodi for compliance inspections at their active CIP projects. These inspections will include Rain Event Action Plans (REAPs), weekly, pre-storm, during storm, post-qualifying storm event, contained storm water release, and quarterly non-storm water inspections.
- **Review of submitted SWPPPs** – WGR will review SWPPP plans submitted through the plan check process. The SWPPPs will be reviewed for compliance to City ordinances and with the State’s Construction General Permit.

B. The Storm Water Design Standards Element:

- **Development Standards Plan (DSP), Site Compliance Reviews & Annual Compliance Reviews** – As an option and additional service to the City’s storm water program, WGR proposes to perform DSP site compliance checks, of each active construction site for which the DSP was applicable. The compliance check will include an initial review of the DSP conditions identified in the plan check process. Each active site will be checked monthly for DSP compliance to make sure the storm water treatment control measures are being installed to the plan check specifications. The monthly visit will be incorporated into the monthly construction site inspection.
- **DSP Annual Inspections** – WGR can also perform the annual DSP inspections required in the MS4 permit. The purpose of the inspections is to confirm that the post-construction BMPs are being maintained as specified in the maintenance agreement submitted to the City by the developer.
- **Review of Submitted DSP Plans** – WGR can assist the plan checkers by reviewing plans submitted by developers for compliance with the City’s Storm Water Development Standards Plan.

C. Other MS4 Permit Support:

- **MS4 Annual Report Preparation** – WGR will prepare the City’s annual storm water report as required by the Phase II MS4 NPDES Permit. The annual report is due on September 15 of each year. WGR will compile the information needed for preparing this report, obtain input from the various departments that are responsible for the compliance activities; perform an effectiveness evaluation of the BMPs and control measures identified in the SWMP; and prepare a draft of the annual report. The draft will be presented to you and others who you designate at the City for their review and comment by August 31. Once comments are received, we will finalize the report and submit it to you for signature and distribution.
