POLLUTION
CONTROL
FACILITY
APPROVED

COUNCIL APPROVED THE RENEWAL OF THE INSTRUMENT
MAINTENANCE SERVICE CONTRACT WITH DIABLO CONTROL
COMPANY FOR THE INSTRUMENT MAINTENANCE AT THE WHITE
SLOUGH WATER POLLUTION CONTROL FACILITY.

CITY OF LODI

COUNCIL COMMUNICATION

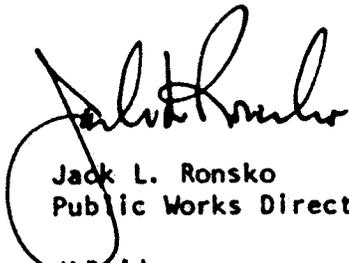

TO: City Council
FROM: City Manager
DATE: December 30, 1980
SUBJECT: Renewal of Instrument Maintenance Services Contract for White Slough Water Pollution Control Facility

RECOMMENDED ACTION: That the City Council approve the renewal of the Instrument Maintenance Service Contract with Diablo Control Company for the instrument maintenance at the White Slough Water Pollution Control Facility.

BACKGROUND INFORMATION: Diablo Control Company has been maintaining the instrumentation at the White Slough Water Pollution Control Facility for the last three years. We recently received a quote from Diablo Control Company for \$15,000 for the time period January 1, 1981 to December 31, 1981. The work to be accomplished under this year's contract is the same as in the 1980 contract. This is only 3 1/2% increase over last year's contract.

In 1979, we went to informal bid and received a bid from Diablo Control Company in the amount of \$12,000 and one from Honeywell Control Company in the amount of \$19,913. In 1980 we received from Diablo Control Company a bid of \$14,500 and found it justified in light of level of service that they are providing, the known increases in labor and material and Honeywell Control Company's bid from the previous year's bid of \$19,913. Since the \$15,000 bid is still lower than Honeywell's 1979 bid, and since Diablo Control Company has performed well over the last year, it is recommended that the contract with Diablo be renewed.

There was \$18,000 budgeted for this item in the 1980-81 sewer operating budget.
