## COUNCIL COMMUNICATION

TO: City Council

FROM: City Manager

DATE: January 29, 1986

SUBJECT: Remove & Replace Public Safety  
Building Air Conditioning Condenser

### Project Data

Originally Budgeted: 1986

Budgeted Fund: General Fund  
121-350.57-519

Amount Budgeted: \$12,500

Total Project Estimate: \$9,000  
(this phase)

Bid Opening Date: February 19, 1986

**RECOMMENDED ACTION:** That the City Council approve the plans and specifications for the above project and authorize advertisement for bids thereon.

**BACKGROUND INFORMATION:** This project includes the removal, relocation, and replacement of air conditioning condenser Unit #2 at the Public Safety Building. This unit serves the entire first floor area. The reason for relocating the unit is that the present unit was installed in 1973 and is beyond repair. The unit was installed below ground level in the south pit which offers poor air flow and maintenance on this unit is difficult. The efficiency and maintenance will be greatly improved by relocating this unit at ground level. The bid opening date and award date of February 19 is required to allow the successful bidder time to order the unit before the warm weather creates cooling problems.
