NO.

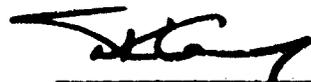

SUBJECT PURCHASE 60-KV STEEL SUBSTATION STRUCTURES (UD-E83-11)

On Tuesday, January 24, 1984, bids were received and opened for six (6) 60-kv steel substation structures. The structures will be installed in conjunction with the Phase 2 development of Henning Substation, now in progress.

During the evaluation of the bid, it was found necessary to modify the steel weight classification of some structural members. The only bidder (Gate City Steel) had provided in his bid a unit price per lb. of steel, for such an eventuality. This modification has increased the original bid amount by \$563.92, to \$11,261.44, an increase which directly corresponds to the added weight.

It is recommended that the bid, as modified, be awarded to Gate City Steel, Tulsa, Oklahoma in the amount of \$11,261.44, with delivery expected in 18 weeks.

The estimate for this purchase was \$11,000.
