ALICE M. REINCHÉ  
CITY CLERK

February 11 1983

TO: THE STATE, COUNTY AND CITY OFFICIALS,  
AND INTERESTED PARTIES

Pacific Gas and Electric Company (PGandE) has filed Application No. 83-01-62 in which it requests authority under its Gas Adjustment Clause (GAC) to increase its gas rates to reflect gas costs and to amortize the Gas Cost Balance Account (GCRA) undercollection.

The GAC increase which PGandE proposes to place into effect on April 1, 1983, is required: (1) to recover increases in the price of gas charged by PGandE's supplier of gas from the Southwest, El Paso Natural Gas Company; (2) to recover increases in the average unit cost of gas charged by PGandE's California gas suppliers; and (3) to amortize the undercollection in the Gas Cost Balancing Account (GCBA).

The proposed rates will increase PGandE's gas revenues about 6.2 percent or approximately \$253 million on an annualized basis. The increase will not raise PGandE's Gas Department rate of return above the level last found reasonable for PGandE's Gas Department by the California Public Utilities Commission.

Since PGandE and the California Public Utilities Commission (CPUC) expect that certain concessions recently announced by the El Paso Natural Gas Company will be implemented in El Paso's rates, PGandE's request is approximately \$100 million lower than would have otherwise been necessary.

The State, the counties, the municipal corporations, and other parties interested in the above-mentioned filing will be furnished a copy of Application No. 83 01 62 with related exhibits, upon written request made to PGandE, 77 Beale Street, P. O. Box 7442, San Francisco, California 94120, Attention: Peter W. Hanschen.

This notice is given in accordance with Rule 24 of the revised Rules of Practice and Procedure of the California Public Utilities Commission.

Very truly yours,

PACIFIC GAS AND ELECTRIC COMPANY

BY Peter W. Hanschen
