PURCHASE OF
VEHICLES
AUTHORIZED

City Manager Glaves requested authority to replace two automobiles which are now considered beyond economic repair. The vehicles include one in the Police Department which was considered and approved for inclusion in the budget but was inadvertently left out of the budget submitted to the City Council, and one in the Parks Department which is used by the Park Patrol. The Police vehicle is used for undercover work and administrative travel and the vehicle used by the Park Patrol would be an extremely high mileage car.

On motion of Councilman Hughes, Murphy second, Council authorized the purchase of the following vehicles:

- a) Police vehicle \$8,000.00
- b) Park vehicle \$5,800.00
- \$13,800.00

COUNCIL COMMUNICATION

TO THE CITY COUNCIL

FROM THE CITY MANAGER'S OFFICE

DATE

February 17, 1982

NO.

SUBJECT:

Replacement of Two Automobiles

I request authority to replace two automobiles which are now considered beyond economic repair. The vehicles include one in the Police Department which was considered and approved for inclusion in the budget, but was inadvertently left out of the budget submitted to the City Council, and one in the Parks Department which is used by the Park Patrol.

The Police vehicle is used for undercover work and administrative travel (to training classes, etc.). It is a high mileage vehicle and now has mechanical problems which need attention. A new vehicle can be put into service elsewhere in the department and a vehicle currently in service passed down for administrative service. It is anticipated that this replacement can be purchased as a used car from a rental supply.

The vehicle used by the park patrol was an extremely high mileage car which has stopped running and is no longer in use. The concept for replacement is to either buy a used compact auto or pickup truck depending upon market availability and cost.

Estimated cost for these vehicles are as follows:

Police vehicle	\$8,000.00
Park vehicle	\$5,800.00
	<u>\$13,800.00</u>

Henry A. Glaves
