

CITY COUNCIL MEETING

February 17, 1982

05-112  
PG&E  
FERC DOCKET  
NO. ER 81-679

A report regarding FERC Docket No. ER81-679 was given by City Manager Glaves. The City Manager related that pursuant to Section 1.11 of the Commission's Rules of Practice and Procedure and Section 35.17 of the Commission's Regulations under the Federal Power Act, PG&E requested permission to reduce from \$19.8 million to a level of \$9.6 million the March 12, 1982 Phase II increase authorized by the Commission in its October 23, 1981 order in the above mentioned docket. The proposed adjustments result from recent changes in the estimated commercial operation dates for PG&E's Diablo Canyon Nuclear units and Helms Pumped Storage units and the deletion of costs associated with the Cool Water Coal Gasification Program. In addition, certain adjustments have been made in accordance with the provisions of the Economic Recovery Tax Act of 1981.
