TO THE STATE, COUNTY, CITY OFFICIALS AND
OTHER INTERESTED PARTIES IN APPLICATION NO. A 82 01 59:

PACIFIC GAS AND ELECTRIC COMPANY (PGandE) hereby gives notice that on January 29, 1982, it filed Application No. A 82 01 59. This application seeks authority to increase electric and decrease gas rates and charges under the Solar Financing Adjustment (SFA) clause authorized in Application No. 60056 by Decision No. 92906, dated April 7, 1981, as modified by Decision No. 93272, dated July 7, 1981. The proposed rates will increase PGandE's electric revenues by about 0.02% or \$861,000 for the twelve month period beginning February 1, 1982, and will decrease gas revenues about 0.08% or \$3,429,000 for the same period.

The adjusted SFA rates will support the second year of a three-year demonstration solar financing program which the Commission ordered PGandE to conduct under OII-42 in Decision No. 92251, dated September 16, 1980. The SFA procedure established for this purpose passes through only actual costs of the program. Under it, PGandE is offering limited numbers of cash rebates and grants to encourage installation of solar domestic water heating systems to reduce gas and electricity usage for residential water heating.

Participation levels in certain categories of the demonstration program in 1981 were not as high as anticipated. The overall reduction in SFA rates by \$2,568,000 on a twelve-month basis is designed to correct a current over-collection in the SFA balancing account and to avoid future over or undercollection.

Inquiries concerning Application No. A 82 01 59, including requests to receive notice of the date, time, and place of any hearing which may be held on this application, may be directed to the California Public Utilities Commission, State Building,

February 11, 1982

TO: THE STATE, COUNTY AND CITY OFFICIALS AND
INTERESTED PARTIES

PACIFIC GAS AND ELECTRIC COMPANY hereby gives notice that in Application No. 82-02-09 it has requested authorization effective April 1, 1982, to implement an Electric Rate Stabilization Plan, to decrease its ECAC rates in accordance therewith, or, in the alternative, to decrease electric rates under the ECAC tariff. PGandE also requests authority to establish an Electric Revenue Adjustment Mechanism (ECAM) rate in accordance with Public Utilities Commission Decision No. 93887, effective April 1, 1982, and to establish forthwith a separate account for the accumulation of certain expenses associated with sales of fuel oil, underlift fees and oil inventory carrying costs for later rate recovery and review.

Under the Rate Stabilization Plan, PGandE proposes to establish rates that will decrease PGandE's electric revenues about 2 percent or approximately \$100 million for the period April 1, 1982 to March 31, 1983.

In the alternative, under the ECAC, as modified by Decision 92496, the April 1 ECAC rate adjustment would decrease electric revenues about 3 percent or approximately \$159 million for the 12-month period beginning April 1, 1982.

The Rate Stabilization Plan, Electric Revenue Adjustment Mechanism rate and other rate adjustments will not raise PGandE's Electric Department rate of return above the level of 12.2 percent last found reasonable for PGandE's Electric Department by the California Public Utilities Commission.

A copy of the application and related exhibits may be examined at the offices of the California Public Utilities Commission, State Building, 350 McAllister Street, San Francisco, California 94102; at Pacific Gas and Electric Company, 77 Beale Street, Room 3107, P. O. Box 7442, San Francisco, California 94106; or c/o Division Managers in PGandE's Division Headquarters in Eureka, Red Bluff, Chico, Marysville, Sacramento, Auburn, San Rafael, San Francisco, Oakland, San Jose, Salinas, Fresno, and Stockton.
