

CITY COUNCIL MEETING  
February 18, 1987

CONCERN REGARDING  
CABLE TELEVISION  
PROGRAMMING - "SELLING"  
CHANNELS

CC-16  
CC-22(c)

Council Member Hinchman asked what, if any, conditions are set forth in the City's Agreement with King Videocable regarding "selling" channels. Discussion regarding the matter followed with questions being directed to the City Manager and City Attorney.

Both Mayor Pro Tempore Olson and Council Member Pinkerton expressed their serious concerns regarding the loss of sales tax revenue to a city when this type of programming is allowed.

Council Member Hinchman asked that this matter be researched and that a report regarding the findings be provided to the Council.

Council Member Pinkerton requested that this subject be brought to the attention of the Central Valley Division and the League of California Cities.
