CITY COUNCIL MEETING

MARCH 2, 1987

LETTER RECEIVED  
FROM SPARC RE  
CONCERNS AT HAM  
AND TOKAY  
INTERSECTION

City Clerk Reimche presented the following letter which had been received from the Site Plan and Architectural Review Committee:

"The Lodi Site Plan and Architectural Review Committee would like to convey to the City Council their concern about the growing traffic problem at the intersection of Tokay Street and Ham Lane. At a recent meeting, the Committee reviewed the plans for the Bank of Lodi, which will be located at the southwest corner of this intersection.

During the review of the Bank of Lodi project, there were numerous concerns expressed about the hazardous situation that exist at that intersection. The consensus was that the intersection presented hazards for both vehicles and pedestrians attempting to cross or turn at this intersection. It was the feeling of the Committee that the problem would increase as the Bank of Lodi, and other offices planned for the west side of Ham Lane are constructed.

The Committee is aware that a traffic signal is listed in the Capital Improvement Plan. The Committee would like to request that the City consider installing the traffic signal and a crosswalk at the earliest possible date. If the signals could be installed this year, it would coincide with the construction of the Bank and other offices planned for the area. Without the signals, the increased traffic will only add to the existing hazardous situation.

Thank you for your consideration of this matter".

RECEIVED

MEMORANDUM, City of Lodi, Community Development Department

ALICE M. REMONTE  
CITY CLERK  
CITY OF LODI

TO: MEMBERS OF THE CITY COUNCIL

FROM: SITE PLAN AND ARCHITECTURAL REVIEW COMMITTEE

DATE: FEBRUARY 16, 1983

SUBJECT: TRAFFIC PROBLEM AT HAM LANE/TOKAY STREET INTERSECTION

The Lodi Site Plan and Architectural Review Committee would like to convey to the City Council their concern about the growing traffic problem at the intersection of Tokay Street and Ham Lane. At a recent meeting, the Committee reviewed the plans for the Bank of Lodi, which will be located at the southwest corner of this intersection.

During the review of the Bank of Lodi project, there were numerous concerns expressed about the hazardous situation that exist at that intersection. The consensus was that the intersection presented hazards for both vehicles and pedestrians attempting to cross or turn at this intersection. It was the feeling of the Committee that the problem would increase as the Bank of Lodi, and other offices planned for the west side of Ham Lane are constructed.

The Committee is aware that a traffic signal is listed in the Capital Improvement Plan. The Committee would like to request that the City consider installing the traffic signal and a crosswalk at the earliest possible date. If the signals could be installed this year, it would coincide with the construction of the Bank and other offices planned for the area. Without the signals, the increased traffic will only add to the existing hazardous situation.

Thank you for your consideration of this matter.
