COMMUNICATIONS

PUC
APPLICATION

City Clerk Reimche presented to Council a Notice that had been received from PG&E stating that in PUC Application No. 60330, it has requested authorization to include in its gas service and its electric service tariff provisions permitting it periodically to adjust its rates and charges for gas service and for electric service and to modify its accounting to reflect and recover costs incurred.

TO: THE STATE, COUNTY AND CITY OFFICIALS AND
PARTIES OF RECORD IN APPLICATION NO. 60153

PACIFIC GAS AND ELECTRIC COMPANY (PG&E) hereby gives notice that in Application No. 60330, filed with the California Public Utilities Commission on March 6, 1981, it has requested authorization to include in its gas service and its electric service tariff provisions permitting it periodically to adjust its rates and charges for gas service and for electric service, and to modify its accounting, to reflect and recover the costs incurred:

1. For preconstruction expenditures, which are expenditures made before all required construction permits are obtained and before actual construction commences for commercial energy facilities specifically authorized by the Commission; and
2. for research, development or demonstration of alternative energy technologies specifically authorized by the Commission; and
3. for contributions specifically authorized by the Commission to certain organizations to be used for electric and gas utility research.

The proposed adjustment procedures will not have any present affect on rates for electric service or gas service. If the proposed adjustment procedures are authorized, their possible affect on rates for electric service or gas service will be determined in subsequent proceedings.

The State, the counties, the municipal corporations, and other parties interested in the above-mentioned filing will be furnished a copy of Application No. 60330, with related exhibits, upon written request made to PG&E,
