

CITY COUNCIL MEETING  
APRIL 1, 1987

ABOVEGROUND UTILITY  
INSTALLATIONS BEING  
CONSTRUCTED AS PART  
OF CABLE TELEVISION  
REBUILD

CC-16  
CC-22(c)

The subject of the King Videocable Company rebuild in this Community was introduced by Council Members Snider and Hinchman, and it was pointed out that apparently some underground utility installations are now being replaced with aboveground utility installations. According to information received these installations are being made without prior notification of the property owner. Staff is presently looking into the situation.
