COUNCIL COMMUNICATION

TO: City Council

FROM: City Manager

DATE: March 27, 1986

SUBJECT: Lodi Grape Bowl
Interior Fencing

Project Data

Originally Budgeted: 1985
Budgeted Fund: Capital Outlay Reserve
Amount Budgeted: \$30,000
Total Project Estimate: \$23,000
Bid Opening Date: March 26, 1986

RECOMMENDED ACTION: That the City Council award the contract for the above project to Frontier Guardco Inc. in the amount of \$17,314.50.

BACKGROUND INFORMATION: This project includes the installation of a 4 ft. high, vinyl-coated fence along the rim of the stadium. Alternative fencing was evaluated and due to the high cost (more than double this fence), they were not included in the specifications.

Award of this project was not included in the regular Council agenda due to some problems with the bids that had to be resolved. These are discussed below. It is being brought to the Council as a non-agenda item in order to expedite early completion of the work. The stadium will be used for City league softball five days a week during May and for graduation ceremonies, June 11, 12 and 13. The work must be completed for the graduations and it is desirable to have it done for the softball games. By awarding the contract on April 3, the work will be completed in early May. Waiting until April 16 will delay completion until late May and leaves little room for unexpected delays.

The problem with the bid involved an addendum to the specifications. The apparent low bidder (Economy Fence) was aware of the addendum and mailed an amended bid which was not in the City's hands at the time of the bid opening. They indicated in a telephone conversation that their amended bid was \$19,465.40, and they were aware of the second bid of \$17,314.50.

The second bidder (Frontier Guardco Inc.), was also contacted and is aware of all the requirements of the specifications and wishes to proceed with the project.

Plans and specifications for this project were approved on February 19, 1986. The City has received the following 8 bids for this project:
