TO THE SAN JOAQUIN COUNTY COMMUNITY:

The Private Industry Council is deeply concerned with the high youth unemployment rate in our county. It is for this reason we passed the attached resolution at our March meeting which addresses the problem. We ask that you join with us in working to help San Joaquin County youth make the transition from school to work.

Presently, we are reviewing all of our programs to determine their effectiveness in training unemployed residents of the county for jobs that are in demand. In addition, we are studying programs from all over the nation to assess if there are any which will help with our local youth employment problems. We hope to have such a program in place before September.

We offer our services to you in an advisory capacity, as representatives of a cross section of business, education, labor, and the community, to assist you in your efforts to address youth unemployment.

Cordially,
