

403
CHURCH STREET
RECONSTRUCTION

The City Council received copies of a letter that had been sent out to property owners in the area of the proposed Church Street Reconstruction. Council was reminded that a public hearing had been set for 8:00 p.m., May 6, 1981 on the negative declaration and project alternatives of this project.

For Council

Dear Property Owner:

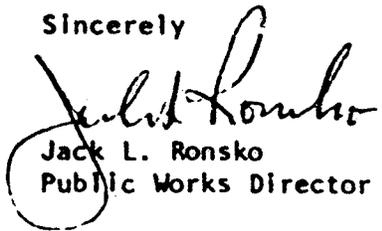

SUBJECT: Church Street Reconstruction

The City of Lodi is planning to rebuild the pavement on Church Street this summer. The project will extend from Lockeford Street to Turner Road. In conjunction with this project, the street will be widened to improve traffic flow and safety. The wider street (48 ft. from curb to curb) will allow two-way traffic, parking on both sides, and allows for four lanes with no parking in the future if traffic demands. No additional right-of-way is being acquired, with the exception of some corner lots where new curb returns would result in a few square feet of sidewalk being on private property. The wider street is obtained by incorporating the planter strips into the street section.

The effects this project might have on the environment of the area have been studied. The study shows that there will be no significant effect. A statement of negligible effects on the environment (a negative declaration) has been prepared. It and plans for the project are available for viewing and comment at City Hall, 221 West Pine St. The City Council will hold a public hearing on the negative declaration and project alternatives at 8:00 p.m. on May 6, 1981, in the Council Chambers at City Hall.

If you cannot come in during business hours (8:00 a.m. to 12:00 noon, 1:00 p.m. to 5:00 p.m.), please call Richard Prima at City Hall, 334-5634, and arrangements can be made to meet you after hours.

Sincerely

Jack L. Ronsko
Public Works Director
