Reply Needed

Council received the following letter which had been received from Roger Nicholson, Commander of the Lodi Post, Inc. of the American Legion:

The Lodi Post 22, of the American Legion, which is located at 320 North Washington Street, is proposing several major improvements to our building. Some of these include a handicap ramp to the front entrance to the building and restrooms for the handicapped on the main floor. The estimated cost for these two items alone will be between \$12,000 and \$30,000, and the end result will benefit the numerous handicapped Lodians that utilize this facility.

It's our understanding that your Engineering Staff would authorize a modification of the public sidewalk and curbing to accommodate the handicap where our proposed ramp will terminate at the public walkway. This modification will be larger than the normal handicap ramp to allow the City's Parks Department access to the neighboring park with their lawn mowers.

We have also learned this portion of Washington Street is scheduled to be repaved this year. In conjunction with this re-paving project we request the City Council to authorize expenditures to eliminate a curb and gutter drainage problem that has existed in front of the building for many years and has caused a safety and health hazard. We have contacted the Engineering Division and it's been indicated the solution to this problem is the placement of a storm line and catch basins on Washington Street and the replacement of approximately 200 feet of existing curb and gutter.

Your help in resolving this ongoing problem would be greatly appreciated.

Sincerely,

Roger Nicholson,
Commander"

REQUEST FROM
AMERICAN LEGION,
POST NO. 22 FOR
PLACEMENT OF A
STORM LINE &
CATCH BASINS ON
WASHINGTON STREET
AND REPLACEMENT OF
EXISTING CURB AND
GUTTER APPROVED

Public Works Director Ronsko addressed the Council indicating that the requested handicap modifications to the sidewalk and curbing had already been approved.

Following additional discussion, Council, on motion of Council Member Murphy, Snider second, authorized the expenditure of approximately \$15,000 for the placement of a storm line and catch basins on Washington Street in the area of the American Legion Building, and the replacement of approximately 200 feet of existing curb and gutter in the subject area.
