Subject: Supplemental Information Regarding
Transmittal of the San Joaquin County 1982
Air Quality Management Plan

Dear Miss Keranen:

Please be advised that the Lodi City Council in action taken at its regular meeting of May 5, 1982 adopted Resolution No. 82-43 adopting the San Joaquin County 1982 Air Quality Management Plan, with the exception of the section dealing with pesticides.

We have enclosed for your information a certified copy of the subject resolution.

Very truly yours,

Alice M. Reimche
City Clerk

RESOLUTION NO. 82-43

RESOLUTION ADOPTING THE SAN JOAQUIN COUNTY 1982
AIR QUALITY MANAGEMENT PLAN

WHEREAS, the San Joaquin County Board of Supervisors has been designated by the U.S. Environmental Protection Agency (EPA) and the California Air Resources Board (ARB) to prepare an air quality plan and program for the San Joaquin County non-attainment area, included as Exhibit "A" to this Resolution; and

WHEREAS, the San Joaquin County Board of Supervisors has prepared an air quality plan which conforms to the requirements of the Clean Air Act, as amended, for controlling emissions that cause violation of the national ambient air quality standards for ozone and carbon monoxide in the San Joaquin County non-attainment area; and

WHEREAS, the City Council of the City of Lodi has reviewed the San Joaquin County 1982 Air Quality Management Plan; and

WHEREAS, EPA and State policy is that significant quality management agencies named in the air quality plan indicate the commitment to implement the Air Quality Management Plan before the EPA and ARB can approve and certify the air quality plan; and

WHEREAS, the City of Lodi is a significant management agency for the purpose of implementing a portion of the Air Quality Management Plan; and

WHEREAS, the Clean Air Act requires the identification and commitment of necessary resources to implement the Air Quality Management Plan;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Lodi approves and adopts the Air Quality Management Plan, save that Section dealing with pesticides, and commits itself to the implementation of those measures identified and described in Exhibit "B"; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi agrees to proceed with a good faith effort to implement those measures identified in Exhibit "B", save that Section dealing with pesticides; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi commits itself to implement measures as scheduled and using funding sources as identified in Exhibit "B", save

that Section dealing with pesticides. Recognizing, however, that the availability of necessary funding may depend on the funding programs or processes of various State and Federal agencies, the City of Lodi agrees to consider amendments to the Air Quality Management Plan, if necessary, to modify the funding or schedules of implementation actions. It is agreed that such modifications will not affect the maintenance of reasonable further progress as defined in the plan; and

BE IT FURTHER RESOLVED that the City Council of the City of Lodi will consider modification of adopted measures and/or adoption of additional measures, as appropriate, during the continuing planning process if implementation does not achieve "reasonable further progress" in reducing emissions, as required by the Clean Air Act; and

BE IT FURTHER RESOLVED that the staff of the City of Lodi will cooperate with San Joaquin County air quality planning staff to develop a procedure for determining the consistency of future development proposals with the air Quality Management Plan. This consistency determination procedure will be based upon the framework described in Section VII-C of the Air Quality Management Plan; and

BE IT FURTHER RESOLVED that the City of Lodi commits itself to continued participation in the continuing air quality planning program; and

BE IT FINALLY RESOLVED that this resolution is entered into on the condition that the City of Lodi portion of the Air Quality Management Plan will be certified without change by the State.

On a motion by Councilman Pinkerton, seconded by Mayor Pro Tempore Murphy, the foregoing resolution was passed and adopted by the City Council of the City of Lodi, State of California, at a regular meeting thereof this 5th day of May, 1982, by the following vote, to wit:

Ayes: Council Members - Olson, Murphy, Pinkerton,
Snider and Reid

Noes: Council Members - None

Absent: Council Members - None

Henry Graves, City Manager
City of Lodi
City Hall
Lodi, CA 95240

Dear Mr. Graves:

Subject: Supplemental Information Regarding Transmittal of the San Joaquin
County 1982 Air Quality Management Plan

Enclosed are twelve (12) copies of the draft San Joaquin County 1982 Air Quality Management Plan (AQMP) and a sample resolution of support. We envision that the AQMP will be reviewed by your office, and your planning and public works staffs. The remaining copies are meant for distribution to your City Council. Please feel free to request additional copies, as necessary.

In reviewing the AQMP, I recommend that you especially consider the Transportation Control Plan (pgs. 41-46) and Section VII - Implementation, as it relates to your jurisdiction and its interests. Specific responsibilities for implementing the air quality plan have been listed for each affected governmental agency beginning on page 73 and ending on page 76. We are asking for support of the specific responsibilities listed in these pages from each mentioned San Joaquin County local governmental agency in the form of a resolution of support. In many cases, these responsibilities encompass existing programs and plans by your jurisdiction.

As mentioned in Supervisor Yoshikawa's letter, the Board of Supervisors will hold a formal public hearing which is now scheduled for Tuesday, May 4th at 2:00 p.m. We are hopeful that you and your Council can provide support for the plan by early April. I will be available from now on to assist and work with you, your staff, and your Council regarding any questions related to the air quality plan. I envision that several staff and Council member briefings would be in order, per your need for them. If you have any immediate questions, please call me. I will otherwise be in contact with your office and your Planning Department to further discuss the contents of the draft AQMP.

Sincerely,

Mark Radabaugh
Air Quality Planner

Subject: TRANSMITTAL OF DRAFT AIR QUALITY MANAGEMENT
PLAN

I am pleased to transmit for your review and resolution of support the Draft 1982 Air Quality Management Plan for San Joaquin County. The purpose of the plan is to identify and show ways to reduce ozone and carbon monoxide levels to federal air quality standards. The Board of Supervisors is the designated lead agency for air quality planning in the San Joaquin County area and will hold formal public hearings on the plan during April. However, before that time we are requesting that each affected jurisdiction review the plan and resolve to support it with specific reference to those tasks listed in the plan that affect your jurisdiction. We are hopeful that your resolution of support could occur by the early part of April.

The air quality plan was prepared by the San Joaquin County Planning Department in conjunction with the Air Pollution Control District and San Joaquin County Council of Governments. Planning Department staff is available to work with you, your staff, and the general public in reviewing this plan. Please contact Mark Radabaugh or Peggy Keranen at 944-3722 with any questions, comments, or requests for information or assistance.

Sincerely,

RICHARD S. YOSHIKAWA
Chairman, San Joaquin
County Board of Supervisors
