City Council Meeting

June 1, 1983

Following introduction of the matters by City Manager Graves, Council took the following actions:

SPECIAL
ALLOCATION
APPROVED FOR
LODI AVENUE AND
CHURCH STREET
SIGNAL
COORDINATION
STUDY AND CITY
HALL PARKING LOT
LIGHTING

a) On motion of Council Member Pinkerton, Murphy second, Council approved a Special Allocation in the amount of \$7,500.00 for Lodi Avenue and Church Street Signal Coordination Study.

b) Council, on motion of Council Member Murphy, Pinkerton second, approved a Special Allocation in the amount of \$3,800.00 for installation of the City Hall Parking Lot Lighting.

CITY OF LODI

PUBLIC WORKS DEPARTMENT

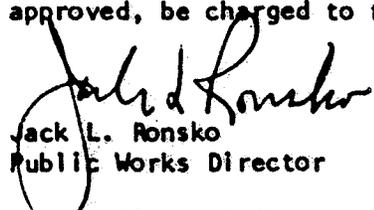

R-4
COUNCIL COMMUNICATION

TO: City Council
FROM: City Manager
DATE: May 27, 1983
SUBJECT: Lodi Avenue and Church Street Signal Coordination Study

RECOMMENDED ACTION: That the City Council approve the attached Special Allocation request for the above subject matter.

BACKGROUND INFORMATION: One of the high priorities for the Chamber's Highway and Transportation Committee is the improvement of traffic flow on Church Street and Lodi Avenue. It is recommended that the proposed study be undertaken by Omni-Means, the traffic engineering firm selected to design and coordinate the signals on Cherokee from Pine Street to Lockeford Street. The analysis that will be undertaken by them will optimize the traffic flow on these two arterials.

The Consultant's proposed cost is \$4,300. The City would collect the necessary field data, using part-time personnel. A conservative (high) estimate for the total work involved is \$7,500. It is recommended that this amount, if approved, be charged to the gas tax fund.

CITY OF LODI

SPECIAL ALLOCATION REQUEST

TO: Finance Director
City Manager

Date: 5/12/83

FROM: Public Works Director

Account Number: 33-500.48

Request is made for funds to accomplish the following which was not included in the current budget:

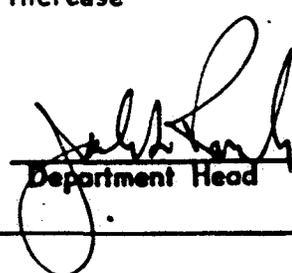

PROJECT DESCRIPTION & JUSTIFICATION

ESTIMATED COST

Lodi Avenue and Church Street Signal Coordination Study

This study will be performed by Omni-Means, the traffic engineering firm selected to design the signals on Cherokee Lane from Lockeford to Pine. They will analyze City furnished traffic data using a package arterial program (PASSAR 11-80) on a minicomputer. The analysis will optimize thru traffic. The results will provide signal settings that should improve traffic progression. However, on Lodi Avenue west of Crescent, the result may increase side street delay to an unsatisfactory level.

Analysis	\$4300
Data collection	\$1500
Staff review	\$1000
Contingencies	\$ 700
TOTAL	\$7500

CITY OF LODI

PUBLIC WORKS DEPARTMENT

K-5
COUNCIL COMMUNICATION

TO: City Council
FROM: City Manager
DATE: May 27, 1983
SUBJECT: Completion of City Hall Parking Lot Lighting

RECOMMENDED ACTION: That the City Council approve the attached Special Allocation request for the completion of lighting at the City Hall parking lot.

BACKGROUND INFORMATION: At the time that the last phase of the City Hall parking lot (east of the City Hall building) was constructed, the lighting of the parking lot was not included. It is recommended that this portion of the parking lot be lighted at this time with two light standards similar to those in the parking lot east of the Fire Station No. 1. This department has received numerous inquiries as it relates to the lack of night lighting in this lot. Due to the number of night meetings held at City Hall, it is recommended for safety reasons that the attached Special Allocation request be approved.

As indicated in the Special Allocation, this work would be done by the City's Utility Department personnel on a fill-in basis.

Request is made for funds to accomplish the following which was not included in the current budget:

PROJECT DESCRIPTION & JUSTIFICATION

ESTIMATED COST

City Hall Parking Lot Lighting

\$3,800

This project includes the installation of two lights in the City Hall parking lot. The lights will be located in the grass median and will be similar to the existing lights in the parking lot east of Fire House No. 1.

Work will be by City Utility forces on a fill-in basis.
