CITY COUNCIL MEETING

1993

City Attorney Stein apprised the Council that he had been asked how the City of Lodi adequately protects itself from suits resulting from injuries caused by defective materials and/or products used in Public Works Projects.

POLICY ESTABLISHED  
TO PROTECT CITY  
FROM SUITS  
RESULTING FROM  
DEFECTIVE  
MATERIALS

City Attorney Stein presented for Council's perusal, an analysis of the question which analysis determined that the City could require all general contractors doing work for the City of Lodi to maintain in addition to normal bodily injury and property damage insurance, independent contractor's insurance.

Discussion followed with questions being directed to Staff. Council, on motion of Council Member Pinkerton, Murphy second, set forth a policy whereby the City will henceforth require all general contractors doing work for the City of Lodi to maintain in addition to normal bodily injury and property damage insurance, independent contractor's insurance.
