Dear Commissioner:

On behalf of the Board of Directors of the Lodi District Chamber of Commerce and the Highway and Transportation Committee, we urge you to re-evaluate priorities when considering highway expenditures for the new budget.

We strongly feel that the appropriation for maintenance and rehabilitation of highways should be the first priority for budget dollars. We do not agree that plantings and beautification of highways should be included as top priorities as indicated in the present schedule of STIP.

California has always been acclaimed throughout the world for the excellent and safe highway/freeway system that we have always endeavored to maintain. We need to take steps now to continue this outstanding system.

Sincerely,

Bob Gray
