The issuance of a permit upon plans and specifications shall not prevent the administrative authority from thereafter requiring the correction of errors in such plans and specifications or from preventing construction operations being carried on thereunder when in violation of this chapter or of any other ordinance or from revoking any certificate of approval when issued in error.

Every permit issued by the Chief Building Inspector under the provisions of this chapter shall expire by limitation and become null and void if the work authorized by such permit is not commenced within 180 days from the date of such permit, or if the work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days.
