Dear Mayor:

The Lodi Burn to Learn Project is now history. It was a real learning experience for all of us involved.

I want to express my deep appreciation to you and the members of the City Council for allowing us to undertake this project. For most of the people, it was a once in a life time opportunity to gain knowledge and experience that cannot be obtained in any other way.

You can be very proud of your fire department. They did an outstanding job throughout the whole project, and the cooperation we received was outstanding.

We, also, received fine cooperation from the Public Works, Recreation and Parks, Water and Sewer, Community Development, and Community Relations Departments. My only disappointment was that the Police Department did not desire to participate with us in the project.

Everyone in the state now knows where Lodi is, and the 350 fire fighters and 110 instructors, medical, overhead, and etc. personnel involved in the training, all say "THANKS" for giving us this opportunity.

Sincerely,

A handwritten signature in cursive script that reads "Edward W. Bent".
