APPROVAL OF ALLOCATION
OF FUNDS FOR ENGINEERING
ON BLOCK GRANT PROJECTS

Council was reminded that the City of Lodi's 1985-86 Community Block Grant projects are as follows:

PROJECT	AMOUNT
Blakely Park Swimming Pools	\$ 180,000
Garfield Street Storm Drain	\$ 25,000
SalasPark Shade Structure	\$ 25,000
Providing Handicap Access to City Hall and Carnegie Library building	\$ 167,000

Because of the extreme difficulties in using Block Grant Funds for engineering or architectural services, we are recommending that

General Fund dollars be used for the design of the Blakley Park and Garfield Street projects. This action would be similar to the engineering allocation made for the 1984-85 storm drain Block Grant projects.

Staff indicated that it is their intention to use the existing design of the Lodi Lake Shade Structure for the Salas Park project and accomplish any additional engineering in house. The architectural services required for modifications to City Hall and the Carnegie Library will be done by the architect who is currently retained and funded out of Revenue Sharing Funds.

The engineering and architectural funds needed are as follows:

PROJECT DESCRIPTION	ENGINEERING OR ARCHITECTURAL SERVICES
Blakely Park Swimming Pools	\$ 15,000
Garfield Street Storm Drain	\$ 2,500
TOTAL	\$ 17,500

The Lodi City Council allocated \$17,500 for engineering and architectural services for the design of the Blakely Park Swimming Pool and Garfield Street Storm Drain Projects.

CITY OF LODI

PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO: City Council
 FROM: City Manager
 DATE: June 13, 1985
 SUBJECT: Allocation of Engineering and Architectural Funds
 for Block Grant Projects

RECOMMENDED ACTION: That the City Council allocate \$17,500 for engineering and architectural services for the design of the Blakely Park Swimming Pool and Garfield Street Storm Drain Projects.

BACKGROUND INFORMATION: The City of Lodi's '85-86 Community Block Grant projects are as follows:

<u>Project</u>	<u>Amount</u>
Blakely Park Swimming Pools	\$ 180,000
Garfield Street Storm Drain	\$ 25,000
Salas Park Shade Structure	\$ 25,000
Providing Handicap Access to City Hall and Carnegie Library building	\$ 167,000

Because of the extreme difficulties in using Block Grant Funds for engineering or architectural services, we are recommending that General Fund dollars be used for the design of the Blakely Park and Garfield Street projects. This action would be similar to the engineering allocation made for the '84-85 storm drain Block Grant projects.

It is our intent to use the existing design of the Lodi Lake Shade Structure for the Salas Park project and accomplish any additional engineering in-house. The architectural services required for modifications to City Hall and the Carnegie Library will be done by the architect who is currently retained and funded out of Revenue Sharing Funds.

The engineering and architectural funds needed are shown below:

<u>Project</u>	<u>Engineering or Architectural Services</u>
Blakely Park Swimming Pools	\$ 15,000
Garfield Street Storm Drain	\$ 2,500
TOTAL	\$ 17,500
