

CITY COUNCIL MEETING
JUNE 20, 1984

CITY CLERK

City Clerk Reimche presented the following letter which had been received regarding various PG&E PUC applications:

PUC APPLICATION

"Mr. Joseph E. Bodovitz
Executive Director
Public Utilities Commission
State of California
350 McAllister Street - Room 5052
San Francisco, CA 94102

Dear Mr. Bodovitz:

Pacific Gas and Electric Company respectfully withdraws Application Nos. 58911 and 58912 and all accompanying exhibits, filed on June 6, 1979 and subsequently amended on January 25, 1982. No part of either Application or exhibit was heard by the Commission.

Concurrently with this letter of withdrawal, PGandE is filing with the Commission today a new Application seeking rate relief for the costs of owning, operating, maintaining and eventually decommissioning Unit No. 1 at Diablo Canyon. This Application differs from the earlier Application and Amendment in format as well as in costs and schedule. Because of these differences, we believe that these proceedings will be more expeditious and to the benefit of all parties, if we begin with a new Application.

Very truly yours,

s/PETER W. HANSCHEN"

ment Clause and Annual Energy)
8 Rate To Reflect Decreased)
Fossil Fuel Expense.)
9 (Electric))

11 NOTICE OF FILING

12 Pacific Gas and Electric Company (PGandE) has
13 filed Application No. 84-06-014 in which it requests authority
14 from the California Public Utilities Commission (CPUC) to
15 establish a rate adjustment procedure for its Diablo Canyon
16 Nuclear Power Plant (Diablo Canyon); and for a net increase
17 in electric rates of \$296.9 million at such time as Unit 1
18 of Diablo Canyon becomes commercially operative, to cover
19 the costs of owning, operating, maintaining, and eventually
20 decommissioning Unit 1. This net increase reflects a gross
21 increase of \$699.8 million reduced by \$366.6 million under
22 the Energy Cost Adjustment Clause (ECAC) and by \$36.3 million
23 under the Annual Energy Rate (AER) as a result of decreased
24 energy costs. The resulting net change in jurisdictional
25 energy charges is 7.5 percent. The percentage impact by
26 customer class is as follows: Residential 7.6; Light and

1 Power (small) 7.6, (medium) 7.6, (large) 7.6; Agricultural
2 7.6; Streetlight 4.4.

3 PGandE has requested that the Commission adopt a
4 three part procedure to reflect Diablo Canyon in rates.
5 During Phase I of this procedure, prior to or upon commercial
6 operation of Unit 1, the Commission would establish a Diablo
7 Canyon Adjustment Clause (DCAC) in PGandE's Electric Tariff
8 which would incorporate a Diablo Canyon Adjustment Account
9 (DCAA) to account for any under or over recovery of carrying
10 costs associated with the capital investment in Unit 1. The
11 balance in the DCAA would begin to be amortized and recovered
12 in rates one year after Unit 1 begins commercial operation.
13 Upon commercial operation of Unit 1, the Commission would
14 authorize interim rates for the cost of owning, operating,
15 maintaining and eventually decommissioning Unit 1. The
16 rates would be based on an adopted estimate of the final
17 capital cost of Unit 1. Concurrent with the authorization
18 of interim rates for Unit 1, electric rates would be reduced
19 under ECAC and AER to reflect the reduced fossil fuel require-
20 ments and other energy cost savings resulting from Unit 1
21 operation.

22 Phase II of the rate procedure will consist of an
23 amendment to this application to reflect in rates the costs
24 and savings of Unit 2. Upon commercial operation of Unit 2,
25 interim rates would be established based upon an adopted
26 estimate of its final capital cost. Under or over collection

1 associated with the final capital cost for Unit 2 would be
2 accounted for in the DCAA. Concurrent with the authorization
3 of interim rates for Unit 2, electric rates would be reduced
4 under ECAC and AER to reflect the reduced fossil fuel require-
5 ments and other energy cost savings resulting from Unit 2
6 operation.

7 Phase III will run concurrently with the review
8 and implementation of Phases I and II, and would constitute
9 the Commission's review of the reasonableness of the costs
10 incurred in constructing Diablo Canyon.

11 The rates requested in this application will not
12 raise PGandE's Electric Department rate of return above the
13 level found reasonable by the Commission in the Company's
14 most recent general rate case decision (Decision No. 83-12-
15 068, dated December 22, 1983).

16 A copy of the application and related exhibits may
17 be examined at the office of the California Public Utilities
18 Commission, State Building, 350 McAllister Street, San
19 Francisco, CA 94102; at Pacific Gas and Electric Company, 77
20 Beale Street, Room 3107, or c/o Division Managers in PGandE's
21 Division Headquarters in Eureka, Red Bluff, Chico, Marysville,
22 Sacramento, Auburn, San Rafael, San Francisco, Oakland, San
23 Jose, Salinas, Fresno and Stockton. Further information,
24 and copies of this application and exhibits may be obtained
25 upon request by writing to PGandE at 77 Beale Street, Room
26 3107, San Francisco, California 94106, Attention: Mr. Peter
