CITY COUNCIL MEETING
JULY 6, 1983

PROPOSED
IMPROVEMENTS TO
STADIUM PARKING
LOT

Agenda item K-5 - "Proposed improvements to Stadium Parking Lot" was introduced by City Manager Graves. Public Works Director Ronsko then apprised the Council that it is recommended that if the City undertakes this project, that the paving be done at this time. An estimate for the stadium parking lot indicates ultimate improvements including paving will cost approximately \$150,000. Based on Grape and Wine Festival providing \$20,000 for these improvements, \$130,000 will have to be appropriated by the City Council. If this work is to be completed this summer, the monies must be approved at the Council meeting of July 6, 1983. If the funds are allocated this department will immediately obtain a consulting engineering firm to do the design in order that the plans and specifications can be brought to the Council for approval on August 3, 1983.

Following discussion, Council, on motion of Mayor Pro Tempore Snider, Pinkerton second, approved funding for the preparation of plans and specifications for Stadium Parking Lot Improvements.

COUNCIL COMMUNICATION

KS

TO: City Council
FROM: City Manager
DATE: July 1, 1983
SUBJECT: Salas Park Improvements
Stadium Parking Lot Improvements

\$ 500,000
A b

Salas Park projects

These two projects were discussed at the last Council shirtsleeve session. Assuming that these projects are going to be constructed this summer, the attached construction schedule would have to be followed.

ESTIMATE
STADIUM PARKING LOT IMPROVEMENTS
