NOTICE OF DATA
ADEQUACY HEARING
ISSUE IDENTIFI-
CATION
CONFERENCE

City Clerk Reimche reported that information had been received from the State of California, State Energy Resources Conservation and Development Commission of a Data Adequacy Hearing/Issue Identification conference to be held as follows:

Thursday, July 19, 1984
and
Friday, July 20, 1984 (if necessary)
Beginning at 10:00 a.m.
California Energy Commission
1516 Ninth Street
First Floor Hearing Room
Sacramento, California
(map attached; wheelchair accessible)

STATE OF CALIFORNIA

STATE ENERGY RESOURCES CONSERVATION
AND DEVELOPMENT COMMISSION

1984 JUL -2 AM 9:16

In the Matter of:

ALICE M. REMCHE Docket No. 83-CFM-5
CITY CLERK
CITY OF KOD
Preparation of the Commission's
Fifth Electricity Report) NOTICE OF DATA ADEQUACY
HEARING/ISSUE
IDENTIFICATION CONFERENCE

As indicated in the schedule attached to the Notice and Hearing Order dated May 8, 1984, the Biennial Report Committee, Geoffrey D. Commons presiding over the Electricity Report portion of the proceedings, will hold a Data Adequacy Hearing, followed by an Issue Identification Conference on Demand Issues. The hearing and conference will be held as follows:

THURSDAY, July 19, 1984

- and -

FRIDAY, July 20, 1984 (if necessary)
Beginning at 10:00 a.m.
California Energy Commission
1516 Ninth Street
First Floor Hearing Room
Sacramento, California
(map attached; wheelchair accessible)

All large and medium-sized utilities as well as the CEC staff, have now submitted all or part of the demand and supply forms required by section 25300 of the Public Resources Code, section 1341 et seq. of the Commission's data collection regulations (Title 20, California Administrative Code), and the implementing orders of the Commission.

Mailed to lists 336, 617, 618, 619, 622, 623, 636, 637, and 638
on June 29, 1984.

The staff of the Energy Commission shall submit no later than July 10, 1984 a statement identifying any utilities that are not in compliance with CFM data requirements, and specifying the missing data. Any utility so identified shall either file the specified data (or portions thereof) before the July 19 hearing or show cause at the hearing why such data (or portions thereof) should not be filed immediately.

Immediately following the Data Adequacy Hearing, the Committee will conduct the Issue Identification Conference. All active participants, including all large utilities and anyone else who chooses to participate (especially medium-sized utilities, the Public Utilities Commission, and the interested public) shall file no later than July 10, 1984 a statement identifying any issues that should be covered during the evidentiary hearings on demand issues, currently scheduled for August 17, 27, 28, 30, and 31, and September 6, 7, 12, and 13, 1984. (See Notice and Hearing Order schedule.)

Parties should be as specific as possible in identifying issues, e.g., by specifying a quantification dispute over a particular conservation program, rather than listing conservation quantification as a generic issue, or by referring to the industrial peak forecast rather than peak in general. Written statements should specify whether the purpose of holding hearings on a given issue would be to

enable the Committee to arrive at a more accurate demand forecast (energy or peak). If not, then such party should specify the statutory authority for addressing the issue in the Electricity Report process. All statements should also specify (1) the witnesses each party intends to present on each issue and (2) the amount of hearing time expected for each witness. Recommendations on how to structure the evidentiary hearings are also welcome.

All written filings must be made by submitting the original and twelve (12) copies to the CEC Docket Unit, Mail Station 4, 1516 Ninth Street, Sacramento, CA 95814.

All utility and staff forms that have been filed are available for public inspection and copying during regular business hours at the Docket Unit at the above address. Any questions about these documents or how to participate further in these proceedings should be directed to the Commission's Public Adviser's Office, Gary C. Heath, at (916) 324-3009, or toll-free in California, at (800) 822-6228. For information regarding the conduct of any hearings, workshops, or conferences, please call the Committee's Counsel, Steven M. Cohn, at (916) 324-3248. For information on any technical issue, please call Susan Bakker at (916) 324-3149, or Mike Jaske at (916) 324-3096.
