

CITY COUNCIL MEETING

August 5, 1981

PUC APPLICATIONS

City Clerk Reimche apprised the Council that a letter had been received from the Pacific Telephone Company stating that it had filed an application with the California Public Utilities Commission to increase mobile rates.

Alivi

Pacific Telephone

July 27, 1981

To Mobile Telephone Service Customers and Interested Parties:

For the past several years Pacific has been doing everything possible to modernize Mobile Radio Telephone Service and convert to a Dial System. Recent advances are encouraging and we expect completion of Improved Mobile Telephone Service (IMTS) prior to June 13, 1982.

In anticipation of the conversion to IMTS, we have continued to render mobile service at rates ordered in 1977. By its Decision No. 93135, the California Public Utilities Commission has directed Pacific to apply, no later than August 1, 1981, to adjust its mobile telephone service rates to a compensatory level.

In compliance with this order, Pacific has filed an application with the California Public Utilities Commission to increase mobile rates to the levels described in the attached.

A copy of the application and related exhibits will be furnished upon written request directed to R. B. Roche, 140 New Montgomery Street, Room 1718, San Francisco, California, 94105.

If you desire to make any inquiries or comments concerning this filing (including a request to receive notice of the date, time and place of any hearings on the application), you should make them in writing to the Commission. The addresses for the California Public Utilities Commission are:

350 McAllister
San Francisco, CA 94102

107 South Broadway
Los Angeles, CA 90012

Sincerely,

L. O. Bradley
