CITY COUNCIL MEETING

SEPTEMBER 1, 1982

CC-14(d) Building

Structure - Storm Drains

PLANS AND
SPECS FOR
MAIN STREET
STORM DRAIN,
ELM STREET
TO TURNER
ROAD APPROVED

COUNCIL APPROVED THE PLANS AND SPECIFICATIONS FOR "MAIN STREET
STORM DRAIN, ELM STREET TO TURNER ROAD" AND AUTHORIZED THE
CITY CLERK TO ADVERTISE FOR BIDS THEREON.

In general, the work consists of replacing undersized storm drains
to reduce flooding during heavy storms. A second phase of this
project--Elm Street Storm Drain, Main to Washington will be
proposed in a future C.I.P. Budget.

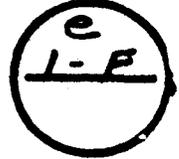

CITY OF LODI

PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO: City Council
FROM: City Manager
DATE: August 27, 1982
SUBJECT: Plans and Specifications for Main Street Storm Drain
Elm Street to Turner Road

RECOMMENDED ACTION: That the City Council approve the plans and specifications for "Main Street Storm Drain, Elm Street to Turner Road," and authorize the City Clerk to advertise for bids to be received Wednesday, September 29, 1982.

BACKGROUND INFORMATION: The construction of a 30" and 24" storm drain in Main Street was approved in the 1981/82 Capital Improvement Budget with an estimated expenditure of \$86,000.

In general, the work consists of replacing undersized storm drains to reduce flooding during heavy storms. A second phase of this project--Elm Street Storm Drain, Main to Washington--will be proposed in a future C.I.P. Budget. The project estimate is lower than the budget estimate because some curb and gutter work planned for this phase is being deleted from the project.

The total cost of the project is estimated at \$60,000.

Jack L. Ronsko
Public Works Director
