

CITY COUNCIL MEETING
SEPTEMBER 17, 1985

13

REVIEW OF RECOMMENDED
ADJUSTMENT FOR
SANITARY SEWER
FEE SCHEDULES

CC-6
CC-44
CC-51 (a)

Council was reminded that at the Shirtsleeve Session of August 26, 1986, Dave Regua from the firm of Black and Veatch reviewed with the Council the final report and study entitled "Facility, Operations and Financial Analysis - White Slough Water Pollution Control Facility". The City staff also reviewed with the City Council the recommended increases for monthly service charges and connection fees.

A proposed resolution for the adoption of the recommended

fees was presented for Council's consideration. The proposed resolution has been written so that sewer fees related to the domestic sewer system will automatically be adjusted upward 15% each year. Once the revised construction time is calculated and the actual plant expansion costs (both phases) are known, there may be need to modify this resolution.

Council discussion followed. On motion of Council Member Hinchman, Snider second, Council continued the matter to the regular Council meeting of October 1, 1986 and directed Staff to provide additional information regarding the subject.
