CITY COUNCIL MEETING
SEPTEMBER 18, 1985

POPLAR STREET WATER
MAIN, WASHINGTON TO
PRIEBE

cc: [unclear]
[unclear]
[unclear]

Council was apprised that the Poplar Street Water Main, Washington to Priebe project, is to provide service to one of eight parcels on Poplar Street as approved by the City Council at its meeting of May 15, 1985. Included are 300' of 6" main, plus 2" water service to the apartment at 322 Poplar, and a

tie-in to the City main on Washington Street. Informal bids were requested from several contractors, but the amount was too large to legally award. The project was formally advertised and notices and/or plans and specifications were sent to eleven contractors and six building exchanges/bidding services. Only one bid was received, in the amount of \$14,169 from C.C. Wood Co. The parcel at 322 Poplar has a temporary water service and City crews can accomplish the project during the winter.

Following discussion with questions being directed to Staff, Council, on motion of Council Member Snider, Reid second, rejected the bid received for Poplar Street Water Main and directed the Public Works Director to install the water main with city forces.
